

North Kelvin Community Council

Covid-19 - Being Neighbourly

**Isolating does not mean
being alone.**

North Kelvin is a residential area. Most of us live in tenements and housing blocks with common entries and common spaces, such as back-greens. These are the building blocks of our communities. We are all neighbours to others. In many cases the neighbourliness has developed into friendships and trust.

It is likely that some of us will have to stay at home for periods during the epidemic, but, provided we maintain contact, while taking the precautions like hand cleaning, we can help each other cope during these short periods.

As neighbours we can assist each other with shopping or collecting prescriptions or putting out rubbish or walking dogs or just having a blether.

The Community Council does not have resources other than the people in the community - a powerful resource!

We would like to have someone from each close or small group of closes or houses to volunteer to be the contact person.

Please fill in the volunteering form on our website

(address below), email your name,

address & the houses you are representing to

NKcovid19@gmail.com, or text us on 078717 33505.

For further local information on how to get help or how to volunteer, see www.northkelvincc.org.uk/covid19/
